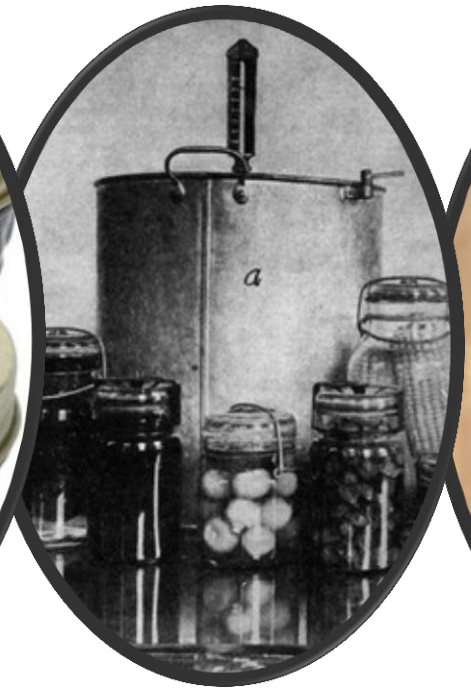
Yes, You Can!

A introduction to canning and preserving

Wednesday, April 3, 7:00 p.m.
Community Room



Have you always wanted to make delicious jams, jellies, salsas, & pickles?

Then this free program is for you! Librarian Candace Bowers will talk about food safety, canning supplies, tried-and-true recipes, and the proper procedures for canning food that'll last a year or more. Sample some finished products that you can learn to make at home.

Please note: we'll be talking and learning, but we won't be cooking.
