

New, Faster Library Wi-Fi

- Go to your device's wireless settings
- Connect to **cmvlib**
- Accept the Terms of Use

What is CENIC?

The Library has a new Wi-Fi network, made possible through a grant from the Cooperation for Education Network Initiatives in California (CENIC). CENIC is a non-profit agency formed to provide high-speed bandwidth services to California's schools and libraries at a reduced cost.

When will I be able to use the new Wi-Fi network?

Starting **Wednesday, October 17th**, Library patrons will be able to connect to the new Library Wi-Fi network that will deliver a much faster and stable connection. From October 17th through October 30th, patrons will be able to connect to the City's network, *cmvwifi* and the new Library Wi-Fi, *cmvlib*. On October 31st, patrons won't be able to access *cmvwifi* in the Library and will only be able to connect to *cmvlib*.

How do I connect?

Go to your device's wireless settings and select *cmvlib*, and then accept the Library's Terms of Use (automatically displays on your default browser). The Library's Wi-Fi is public, open, and unsecured. Here's an [article from the Federal Trade Commission](#) on how you can keep your information secure using public networks.

What are the benefits of the new wireless network?

- Faster Internet speeds than before.
- The Library's network, *cmvlib* is not shared with other City buildings. It is only available in the Library, unlike the City's wireless, *cmvwifi*.

What about the Library's public computers and wired ports?

The Library's wired public Internet stations and public Ethernet ports will be moved to CENIC in January 2019.
