JOIN YOUR NATIVE PLANT-ENTHUSED FELLOWS! BRING PICTURES OF YOUR YARD, ASK AN EXPERT FOR HELP, AND RE-DESIGN YOUR LANDSCAPE.

Pruning Techniques for Native Plants & Trees

March 28, 2019; 6:00pm - 8:30pm

Learn how to properly care for your native plants and trees and maintain the health of your landscape for years to come! Class instruction includes pruning techniques for each season, types of tools to use, and how to prune different types of vegetation.

Designing Native Rain Gardens

April 11, 2019; 6:00pm - 8:30pm

Discover how to transform your yard into a beautiful and functional rain garden. Learn about the benefits of rain gardens, including flood protection and wildlife habitat, and create a design of your own.

Water-Efficient Edible & Native Plants

April 25, 2019; 6:00pm - 8:30pm

Discover how to recreate your yard into a beautiful and edible habitat! Learn how native plants and edibles attract beneficial insects, improve soil quality, and reduce water use.

Laundry to Landscape: Graywater System Installation

May 16, 2019; 6:30pm - 8:30pm

Start saving money and water by reusing laundry water in your landscape! Learn how to assess your home and landscaping to install a graywater system without additional expensive pumps, filters, tanks or permits. Attendees are encouraged to bring photos of their laundry area and landscaping for additional help. Santa Clara County residents are eligible for a \$200 rebate!
