

## **Parking Enforcement**

Effective for the duration of the local state of emergency, the City will not ticket for mechanical street cleaning. However, it is crucial the City continue to clean our streets to maintain safe and sanitary streets. Please continue to move your vehicle for street cleaning when possible.

Enforcement is temporarily suspended for the following:

- 72-hour parking limit and towing
- All time limit parking (e.g., 1-hour, 2-hour, etc.)
- Residential Permit Parking permits
- Peak-hour tow-away zones
- Street cleaning

The City will prioritize enforcing parking rules that impact health and safety:

- Fire hydrant zones
- Red and yellow zones; and "No Stopping" or "No Parking" zones
- White passenger loading zones, except in front of schools while they are out of session
- Blocked driveways, double parking and parking on sidewalks
- Parking in bike or transit lanes

The City will continue to enforce all other parking rules, including the priorities listed above and excluding only those temporarily suspended. The City will consider the impacts of the local state of emergency when processing appeals related to late fees assessed for citations issued prior to March 17, 2020.
